TYPE 1 DIABETES CAN BE DANGEROUS IF NOT DIAGNOSED IN TIME

Know the **4T** early signs

Toilet

Thirsty

Tired

Thinner

If your child has one or more of these symptoms, they may have type 1 diabetes. A delay in diagnosing type 1 diabetes can lead to a severe and potentially fatal complication called diabetes ketoacidosis, or DKA. An easy, fast and free blood glucose check from your GP is all that it takes to diagnose type 1 diabetes.
