

# Preparing for, and Recovering from Emergencies

Resource Directory

## Acknowledgement of Ngurra

The City of the Blue Mountains is located within the Ngurra (Country) of the Dharug and Gundungurra peoples. Blue Mountains City Council recognises that Dharug and Gundungurra Traditional Owners have a continuous and deep connection to their Country and that this is of great cultural significance to Aboriginal people, both locally and in the region.

For Dharug and Gundungurra people, Ngurra takes in everything within the physical, cultural and spiritual landscape – landforms, waters, air, trees, rocks, plants, animals, foods, medicines, minerals, stories and special places. It includes cultural practice, kinship, knowledge, songs, stories and art, as well as spiritual beings, and people: past, present and future.

Blue Mountains City Council pays respect to Elders past and present while recognising the strength, capacity and resilience of past and present Aboriginal and Torres Strait Islander people in the Blue Mountains region.

To truly honour the past and respond to the future in an honest and meaningful way, Blue Mountains City Council recognises the past and ongoing injustices from dispossession, displacement, disadvantage and discrimination experienced by the Dharug and Gundungurra people, and the broader Aboriginal community in what is now the Blue Mountains Local Government Area.

# How to use this directory

## Introduction

This directory is a compilation of services provided by state and other organisations that provide guidance and advice in the prevention, preparation, response and recovery to, and from emergencies.

It is designed to enable you to better understand how an emergency could affect you, and those around you, and, become better prepared, by following these five simple steps:

- 1. Know your risk** – think about the area you live in and the individual circumstances that could affect your decisions in a disaster
- 2. Plan for what you will do now** – talk with your family or support people and plan for what you will do in an emergency, remember to include your pets.
- 3. Get your home ready** – keep up general home maintenance and check all your insurances.
- 4. Be aware** – know what to do and who to connect with to stay informed if there is an emergency in your area.
- 5. Look out for each other** – share information with your family, friends, neighbours and those who may need additional assistance.
