

My Health Record Incentive Program for Pharmacists

Nepean Blue Mountains Primary Health Network (NBMPHN) is encouraging Pharmacists to view a patient's My Health Record before dispensing medications, particularly for those patients with multiple medications and chronic diseases.

My Health Record now includes recent medications dispensed from any pharmacy as well as the patient's diagnosis profile to prevent the possibility of incorrect dispensing.

Every time you view the contents of a patient's My Health Record, you are on your way to winning a prize.

But you'll need to be quick – there are a limited number of prizes. Targets must be commenced and completed in the same calendar month.

The My Health Record incentive program has three levels:

Level	Qualifying Views	Award	Number of Prizes per Month
Level 1	20	A Pack of 6 Syringe Pens PLUS Fibreglass Measuring Tape	90 awards
Level 2	90	Omron Non-Contact Forehead Thermometer	15 awards
Level 3	120	Paid registration to Mental Health First Aid online course	5 awards

How to Win

1. Set yourself the goal of one of our 3 prize levels to achieve *within one calendar month* (eg. 120 views) for each month between now and September 2018.
2. Use our **tally sheet** to record each view. You can record this using our online interactive PDF or by manually crossing off a printed version.
3. Once you have reached a prize level, submit your tally sheet before the end of the calendar month to our My Health Record team. You can do this by submitting your details and the completed tally sheet using the online form available at **www.nbmphn.com.au/Pharmacy/MHRincentive**. Alternatively you can **fax** it to **9673 6856** (make sure that your name and your practice/pharmacy name are noted on the form).
4. Enter each month between now and the end of September 2018.

Prizes will be determined by meeting the program criteria and then the date and time received.

Prize Details

Level 1:

A Pack of 6 Syringe Pens *plus* Fibreglass Measuring Tape

Level 2:

Omron MC-720 non-contact Forehead Thermometer

Provides fast touchless forehead temperature measurement, suitable for all ages, including infants and young children.

- 3 measurement modes: Forehead (body) Temperature, Room Temperature, Surface Temperature (such as a baby bath or bottle)
- Instant, one second reading
- Non-contact temperature measurement
- Easy to hold design
- Backlight provides visibility in the dark
- Last reading displayed on the same screen as the current reading for easy comparison
- Easily switch between Fahrenheit and Celsius
- Memory feature recalls the last 25 readings
- Silent mode
- 2 year warranty (extended to 4 years if registered online)
- Powered by 1 x CR2032 button battery

Level 3

Mental Health First Aid Course

provided by Mental Health First Aid Australia (www.mhfa.com.au)

Course information

- Includes a 186 page 4th edition Standard MHFA manual
- 12 months access to a self-paced course online via Moodle LMS
- Approximately 6-8 hours to complete
- Audio, video, case scenarios and short multiple choice quizzes to keep you engaged
- An eCertificate of completion on successful completion of the course (PDF) is provided
- Online, email and telephone technical support.

Using case-studies, videos and resources tailored to their learning needs, participants learn mental health first aid skills which can be applied to help any adult to address depression, anxiety problems, psychosis and substance use problems as well as mental health crises such as suicidal thoughts, panic attacks and severe psychotic states.
